SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 01/18/21 at 1100 hours:

- 95,771,210 (+524,680) total confirmed cases in 219 countries and territories.
- 2,044,241 (+8,138) total deaths.

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 01/17/21 at 1000 hours:

- 23,653,919 (+213,145) total confirmed cases.
- 394,495 (+3,557) total deaths.

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 01/18/21 at 1100 hours:

- 2,973,174 (+30,699) total confirmed cases.

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

SITUATION SUMMARY

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Train Derailment, Santa Ana, Orange County, SPILL: 21-0272

On 01/18/21 at 1323 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) advising that a single locomotive derailed in the upright position due to human error.

- There were no hazardous materials released and no injuries reported.
- A re-railment was coordinated and completed without incident.
- CSWC personnel performed notifications per SOP.

- VoIP Users Impacted: No

Service Interruptions

- None reported

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Strong offshore winds will continue across Central and Northern California through Tuesday.
- Damaging winds with gusts of 70-80 mph or higher will develop across the Bay Area hills/mountains and northern Sierra this evening, and across the Central Sierra Monday night into Tuesday.

SOUTHERN CALIFORNIA

- Strong and damaging northeast winds starting later tonight and lasting through early Wednesday morning.
 - Strongest winds are expected on Tuesday into Tuesday evening with wind speeds of 35-55 mph with damaging gusts between 70 and 80 mph for the mountains and foothills, wind speeds 30-50 mph with damaging gusts 60-75 mph for valleys, and wind speeds 25-45 mph with damaging gusts 50-65 mph for coastal areas.

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

01/18/21 - 01/24/21

Monday-Thursday

- A significant wind event will be bearing down on the state starting today, with winds already picking up across the Sacramento valley and across the northern Sierra
- Winds will increase southward throughout the day really picking up by late tonight across much of the state
- The strongest winds are expected late Monday (tonight) through Tuesday morning as a strong cold front deepens the strong pressure gradient across the state
 - **Damaging winds with gusts of 70-80 mph or higher will develop across the Bay Area hills/mountains and northern Sierra Monday evening, and across the Central Sierra Monday night into Tuesday**
 - **Along the high Sierra, this wind event looks similar to previous events that caused widespread tree damage in the Tahoe area, with winds well in excess of 100 mph expected and possibly even in excess of 150 mph along the Sierra Crest**
 - Relative humidity will be low enough combined with the lack of recent rain to cause critical fire weather conditions
- A moderate to strong Santa Ana wind event will develop across southern California late Monday through Wednesday morning, potentially causing wind damage and critical fire weather conditions for a significant portion of southwestern California
 - **The strongest winds are anticipated to be late Monday night and Tuesday across Los Angeles and Ventura counties with damaging wind gusts 60 to 80 mph or possibly even higher (90+ mph) in some areas**
 - Relative humidity will be low enough combined with the lack of recent rain to cause critical fire weather conditions
- Winds will gradually diminish for northern California on Tuesday afternoon and for southern California early Wednesday
- Cooler conditions with light precipitation increasingly likely across southern California Tuesday onward, initially from San Diego to the Mojave Desert Tuesday, then more extensive into the Los Angeles metro area on Thursday

Friday-Sunday

- The chance of light rain continues across southern California through the weekend
- A weather system may move into the state on Friday and Saturday, potentially bringing some light snow to the Sierra
 - Confidence is low on the extent of precipitation, however the system does not look particularly impactful at this time

CALIFORNIA WEATHER IMPACTS
